

VSCAR Vintage Stock Car Showcase presented by Vintage Oval Racing Magazine on-track during NASCAR Pop Secret 500 weekend at California Speedway September 3-5, 2004.

Vintage Stock Cars took to California Speedway Friday, Saturday, and Sunday and were on display during the NASCAR Nextel Cup event Labor Day weekend.

Palo Alto, CA The many styles of racing Stock Cars were the focus of the VSCAR Stock Car Showcase at NASCAR's Labor Day, California Speedway weekend with on-track sessions and paddock exhibition. During the Pop Secret 500 weekend at California Speedway, Vintage Stock Cars representing decades of Stock Car racing legends thrilled the fans with on-track sights and sounds of the legendary eras of the NASCAR series.

Vintage Stock Cars once driven by David Pearson, Bobby Unser, Jack McCoy, Johnny Mantz and other legends once again roared on-track. The cars of the '50s with outrageous grills and bulbous fenders; the tank like cars of the '60s; the sleek cars designed and styled to cheat the wind in the '70s thundered down the straights and on the high banking as the fans experienced NASCAR racing history in action.
